

# Express Scripts Canada – Cognitive Service Fee Claims (Step Therapy Modules)

## COGNITIVE SERVICE FEE CLAIM SUBMISSIONS – STEP THERAPY MODULES

For the reimbursement of cognitive service fee claims, the pharmacy provider submits a separate EDI claim indicating the step therapy module’s cognitive service fee PIN in the DIN field. The pharmacy provider also indicates the usual and customary cognitive service fee in the drug cost field. Express Scripts Canada may conduct a post claim review of the cognitive service fee paid to verify the validity of the claim.

Note: This communication is not applicable to the Non-insured Health Benefits Program. Cognitive service fee may vary depending on the plan design. This communication may be updated at any time.

Step Therapy Module	PIN	Description
APTIOM	98174119	USE LOWER COST IMINOSTILBENE ANTIEPILEPTICS FIRST
BPH	98174114	USE GENERIC BPH DRUGS FIRST
BREO	98174121	USE BREO ELLIPTA FIRST
CHOLEST	98174106	USE CRESTOR, LIPITOR, ZOCOR OR CADUET FIRST
DIAB PA	98174107	USE METFORMIN FIRST
DM 3 STP	98174111	USE METFORMIN, SULFONYLUREA, TZD, MEGLITINIDES OR ACARBOSE FIRST
DM BRAND	98174110	USE METFORMIN, SULFONYLUREA, TZD OR ACARBOSE FIRST
DM INSULIN	98174112	USE BASAGLAR FIRST
DOPA	98174118	USE ORAL DOPAMINE AGONIST FIRST
DPP 4	98174103	USE METFORMIN OR SULFONYLUREA FIRST
GOUT	98174105	USE GENERIC ALLOPURINOL FIRST
INSPRA	98174115	USE SPIRONOLACTONE FIRST
LONG-ACTING OPIOID	92000042	USE SHORT-ACTING OPIOID FIRST
MET ER	98174104	USE GENERIC METFORMIN IR FIRST
NSAID	98174113	USE GENERIC COX1 SINGLE-ENTITY NSAIDS FIRST
OAB2	98174117	USE MORE COST EFFECTIVE ORAL OAB DRUGS FIRST
OSTEO	98174116	USE GENERIC BISPHOSPHONATE FIRST
PPI2	98174101	USE GENERIC PPIS, EXCEPT ESOMEPRAZOLE, FIRST
RAS BP	98174102	USE ACE INHIBITOR, ACE COMBO, GENERIC ARB OR GENERIC ARB COMBO FIRST
ROSACEA	98174120	USE LOWER COST TOPICAL ROSACEA DRUGS FIRST
SNRI	98174108	USE GENERIC VENLAFAXINE FIRST
SSRI	98174109	USE GENERIC SSRI FIRST
